MODULE DESCRIPTION

Module title	Finance 1
Module code	OFIN
Study program	Finance and Accounting (BFA), Business Administration (BBA), Economics (BSE)

Module Coordinator/Lecturer

Type	Lecturer	Email	Office	Office hours
Coordinator	Dr. Le Minh Hanh	hanh.lm@vgu.edu.vn	Cluster1 –R.506	9:00am – 4:00pm
Lecturer	Dr. Omer Cayirli	omer.cayirli@vgu.edu.vn	Cluster1 –R.522	9:00am – 4:00pm
RTA	Ty Dam Phuong Ngoc	ty.dpn@vgu.edu.vn	Cluster1 –R.531	9:00am – 4:00pm
Tutor				
Other	None			

Classification ☒ Compulsory ☐ Semi-elective

Semester Summer Semester 2026

Student Workload

Credits	5	ECTS
Teaching periods	45	AHs
Assignments and independent learning	105	AHs
Total Working hours	150	AHs

Frequency And Eligibility Criteria

Students who have successfully completed or are exempted from the Foundation Year at VGU are eligible to register for this course.

Course Objectives

Contents:

- Net present value method for the evaluation of investment projects
- Valuing bonds and stocks
- Capital markets and the pricing of risk
- Optimal portfolio choice and the Capital Asset Pricing Model (CAPM)
- Introduction to Forwards, Futures, and Options

Competency Objectives:

Students...

- ...acquire the financial basics necessary for the bachelor's degree.
- ...have a basic understanding of how to value safe and risky cash flows.
- ...can capture the risk in investment projects and evaluate modern financial instruments.
- ...gain insight into the different approaches of neo-classical and institutional economic finance theory.
- ...acquire competencies for the development of solution concepts for exercise tasks within the framework of the tutorial.

MODULE DESCRIPTION

Module title	Finance 1
Module code	OFIN
Study program	Finance and Accounting (BFA), Business Administration (BBA), Economics (BSE)

Course Learning Outcomes

Students should obtain the required knowledge and tools for addressing the following questions:

- How are riskless and risky cash flows valued?
- What are the investment decision rules and how is the capital budgeting process carried out?
- How to value bonds and stocks?
- What are the basics of portfolio theory? How to select optimal portfolios?
- How does modern portfolio theory relate to the Capital Asset Pricing Model (CAPM)? What are the implications of CAPM?
- What are the basics of derivative products, how are they valued, and how to use them?

Course Learning Outcomes (CLO)	**Related Program Learning Outcome (PLO)**	**Level of Contribution (*x: Beginner - xx: Intermediate - xxx: Advanced)***
Riskless and risky cash flow valuation	BBA (1, 2); BFA (1,2)	BBA(x), BFA(x)
Investment decision rules and the capital budgeting process	BBA (1, 2, 4); BFA (1, 2, 3, 4)	BBA(x), BFA(x)
Valuing bonds and stocks	BBA (1, 2, 3); BFA (1, 2, 3)	BBA(x), BFA(x)
Basics of portfolio theory and optimal portfolio selection	BBA (1, 2, 4); BFA (1, 2, 3, 4)	BBA(x), BFA(x)
Understanding the fundamentals of asset pricing (CAPM)	BBA (1, 2, 3), BFA (1, 2, 3)	BBA(x), BFA(x)
Basics understanding of derivative products, valuation approaches and use cases.	BBA (1, 2), BFA (1, 2, 3, 4)	BBA(x), BFA(x)

Contents *(Outline of subject and topics explored)*

No.	**Topic**	**Teaching hours**	**Assignments and independent learning hours**
1	Financial Decision Making	3	6
2	Time, Money, and Interest Rates	6	15
3	Investment Decision Rules, and Capital Budgeting	9	21
4	Valuing Bonds and Stocks	9	21
5	Capital Markets and the Pricing of Risk	5	12
6	Optimal Portfolio Choice and the Capital Asset Pricing Model (CAPM)	5	12
7	Introduction to Forwards, Futures, and Options	8	18

Learning activities

This course will utilize lectures, exercises, case studies, quizzes, and self-study to attain the learning goals. Learning activities will be supported by Pearson MyLab access, which includes AI supported textbook. Additionally, Python, VS Code/Antigravity and Jupyter Notebooks will be introduced and used to enhance learning activities for some of the topics. Since the lectures will adopt an interactive approach, students should spend sufficient time on assigned readings/tasks for each lecture before the class. The course RTA will deliver weekly recitation sessions (2 ATHs, optional) to support learning progress.

MODULE DESCRIPTION

Module title	Finance 1
Module code	OFIN
Study program	Finance and Accounting (BFA), Business Administration (BBA), Economics (BSE)

Activity	Description	Alignment with ILOs	Estimated Student Effort (Hours)
Lectures	Theoretical fundamentals and practical applications	BBA (1, 2, 4); BFA (1, 2, 3, 4)	28
Tutorials/Exercises	Utilization of theoretical knowledge	BBA (2); BFA (2)	45
Case Studies	Transfer the theoretical knowledge to complex real-world scenarios	BBA (1, 2, 4); BFA (1, 2, 3, 4)	15
Quizzes	Learning reinforcement and progress tracking	BBA (1, 2); BFA (1, 2)	2
Self-study	Preparation for lectures, internalization of concepts	BBA (1, 2, 4); BFA (1, 2, 3, 4)	60
Recitation Sessions	Content review, enhancing learning progress	BBA (1, 2, 4); BFA (1, 2, 3, 4)	12 (Optional)

Mode of assessment

The mode of assessment for this course is based on the portfolio approach. The portfolio consists of class contribution, 4 (four) quizzes, and a final exam (75 minutes). Participation and contribution to the in-class discussions are important parts of the portfolio. No weights are assigned to individual parts of the portfolio. The final grade for this course will be based on the students' progress and overall performance.

Regular exam - Pass requirements

A student is required to pass all assessment items to pass the course (competency and/or grade-based): NO
A student is required to attempt all assessment items to pass the course: YES
Regarding the quizzes, a student MUST attempt at least three of the four quizzes that will be offered to fulfill pass requirements.

Retake exam - Pass requirements

The portfolio approach will be applicable for the final grade in case a retake exam is needed. Except class contribution/participation component, portfolio elements from the regular examination cannot be carried forward to the retake examination. The pass requirements for the retake exam are the same as the regular exam (see above).

Module materials

Required texts: (CF-B&D), Corporate Finance, Jonathan Berk and Peter DeMarzo, Global Edition Sixth Edition, 2024. (Will be accessible on Pearson MyLab.)
Recommended texts (RWJJ), Corporate Finance, 12th Edition, S. Ross, R. Westerfield, J. Jaffe, and B. Jordan, 2019.

Lecture Notebooks: Lecture notebooks will be available for access on GitHub before each class (without solutions to end of lecture exercises) and will be updated after each class (with solutions). The supporting lecture materials will be uploaded to GitHub as lectures progress.

DETAILED COURSE SCHEDULE

Lecture 1 - Introduction

- General introduction to the course, a brief overview of contents, and learning goals.
- Financial Decision Making
- **Reading(s): CF-B&D: Ch. 3**

Lecture 2 – Time, Money, and Interest Rates

- The Time Value of Money
- Interest Rates
- **Reading(s): CF-B&D: Ch. 4 & 5**

Lecture 3 – Valuing Projects I

- Investment Decision Rules
- **Reading(s): CF-B&D: Ch. 7**

Lecture 4 – Valuing Projects II

- Fundamentals of capital budgeting
- **Reading(s): CF-B&D: Ch. 8.**

Lecture 5 – Valuing Bonds

- Bond pricing
- **Reading(s): CF-B&D: Ch. 6**

Lecture 6 – Valuing Stocks

- The Dividend-Discount Model
- Alternative equity valuation techniques
- **Reading(s): CF-B&D: Ch. 9.**

Tutorial Session 1

- Financial Decision Making
- Time, Money, and Interest Rates
- Valuing Projects
- Valuing Bonds
- Valuing Stocks

Lecture 7 – Risk and Return I

- Capital markets and the pricing of risk.
- Optimal Portfolio Choice
- **Reading(s): CF-B&D: Ch. 10. & Ch. 11.1-11.6**

Lecture 8 – Risk and Return II

- The Capital Asset Pricing Model (CAPM)
- Cost of capital.
- Investor Behavior and Capital Market Efficiency
- **Reading(s): CF-B&D: Ch. 11.7-11.8, Ch. 12 & Ch.13**

MODULE DESCRIPTION

Module title	Finance 1
Module code	OFIN
Study program	Finance and Accounting (BFA), Business Administration (BBA), Economics (BSE)

Lecture 9 – Derivatives I

- Introduction to derivatives
- Futures & Forwards
- Introduction to options
- Option Payoffs
- **Reading(s): RWJJ: Ch. 25, CF-B&D: Ch. 20,** Fourteen large commodity trading disasters: What happened and what can we learn?

Lecture 10 – Derivatives II

- Put-Call Parity
- Factors Affecting Option Prices
- Futures & Forwards
- Binomial Option Pricing Model
- **Reading(s): CF-B&D: Ch. 21**

Tutorial Session 2

- Risk and Return
- Derivatives
